

# CONSTRUCTION IMPACTS TO TRAFFIC

## Terminal 1.5 Departures Level Barricade Phase 2

Saturday, January 19, 2019 through Saturday, March 29, 2020

### BARRICADE RELOCATION

- On Saturday, January 19, 2019, nightly work to relocate the Departures Level curbside barricade between Terminals 1 and 2 begins
- The relocated barricade, which will encompass the entire existing sidewalk at this area, is expected to be complete by early March 2019
- It will remain in this position through late March 2020

### PEDESTRIAN RE-ROUTE

- To maintain pedestrian traffic, a temporary sidewalk will be built over the innermost Drop-Off / Pick-Up lane (nightly work, expected completion mid-February)
- While the temporary sidewalk is constructed, the existing sidewalk remains open

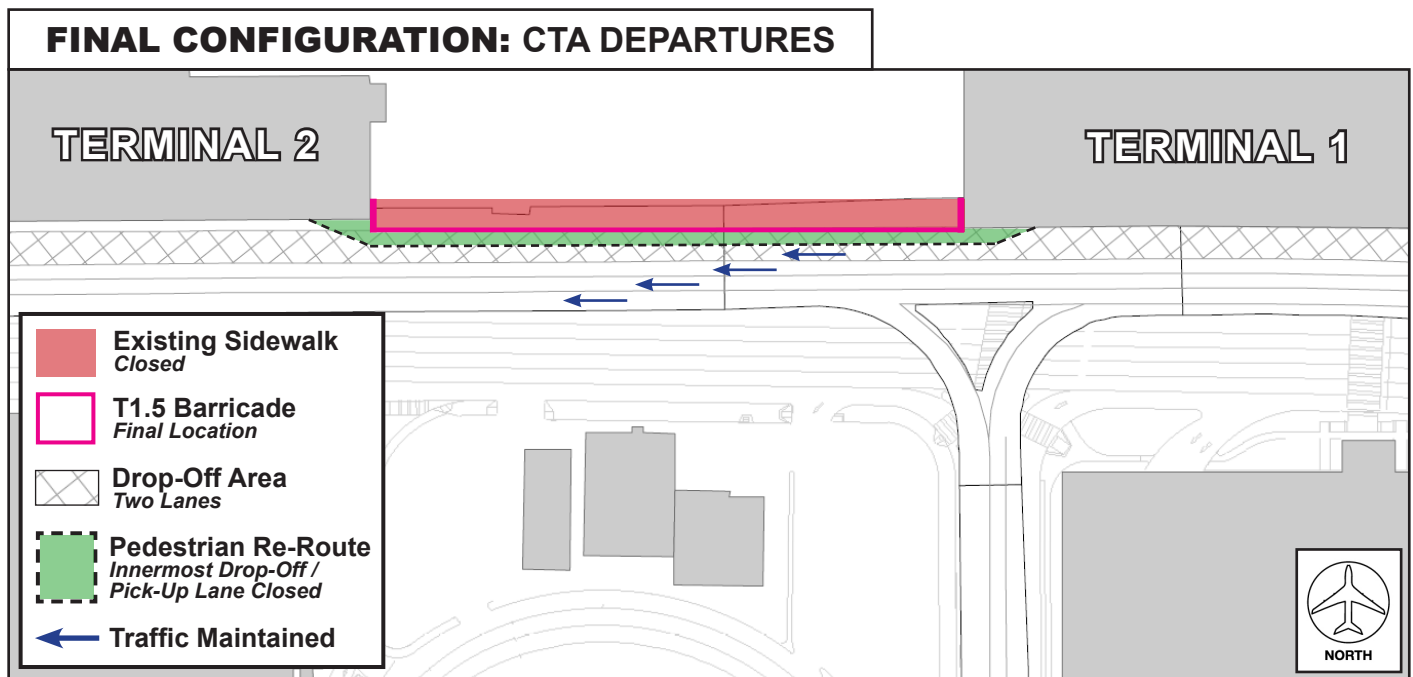

### IMPACTS

- During temporary sidewalk construction and barricade relocation, up to three lanes will be restricted nightly from 11PM to 4AM; traffic will be maintained at all times
- During nightly construction, passenger Drop-Off and Pick-Up are prohibited at this area

### FINAL CONFIGURATION

- Upon completion of the relocation, one Drop-Off lane and three regular lanes of traffic will be maintained

*\* Future intermittent lane restrictions at this area will be required for additional work related to this project. Updated notice(s) will be issued as needed.*
